Dear Army Corps of Engineers,

December 20, 2015

My Wife and I are applying for a permit if needed to attach (3) Jet-Sky lifts to our floating dock (dock already installed) behind our home located at 3906 East Baycliffs Drive, Lot 101, Johnsons Island, Marblehead, Ohio 43440. The Baycliffs Association community is located on a Quarry in the interior of Johnsons Island and is connected by a waterway channel to Sandusky Bay and Lake Erie. We have had our lot surveyed (see page 2 of 7) and shows our lot lines. We plan to install our Jet-Sky Lifts thru Spring of 2016 thru Fall of 2017. The Jet-Sky Lifts would be considered a fixed system (not removable) and will be fastened to the existing Floating Dock with 5/8 bolts and will float on Lake Erie water level. During the Winter months we will Bubble the water around the dock if needed.

Please note: We applied for a permit to install Geothermal Heat Transfer Lines to be put under our dock but decided that it would be cost prohibitive at that time. The application at that time was # 2005-00865 (0) and was granted on May 19, 2005, application 2005-00865(1) Nationwide Permit No. (12) as Published in the Federal Register, Volume 67, No. 10, on Tuesday January 15, 2002.

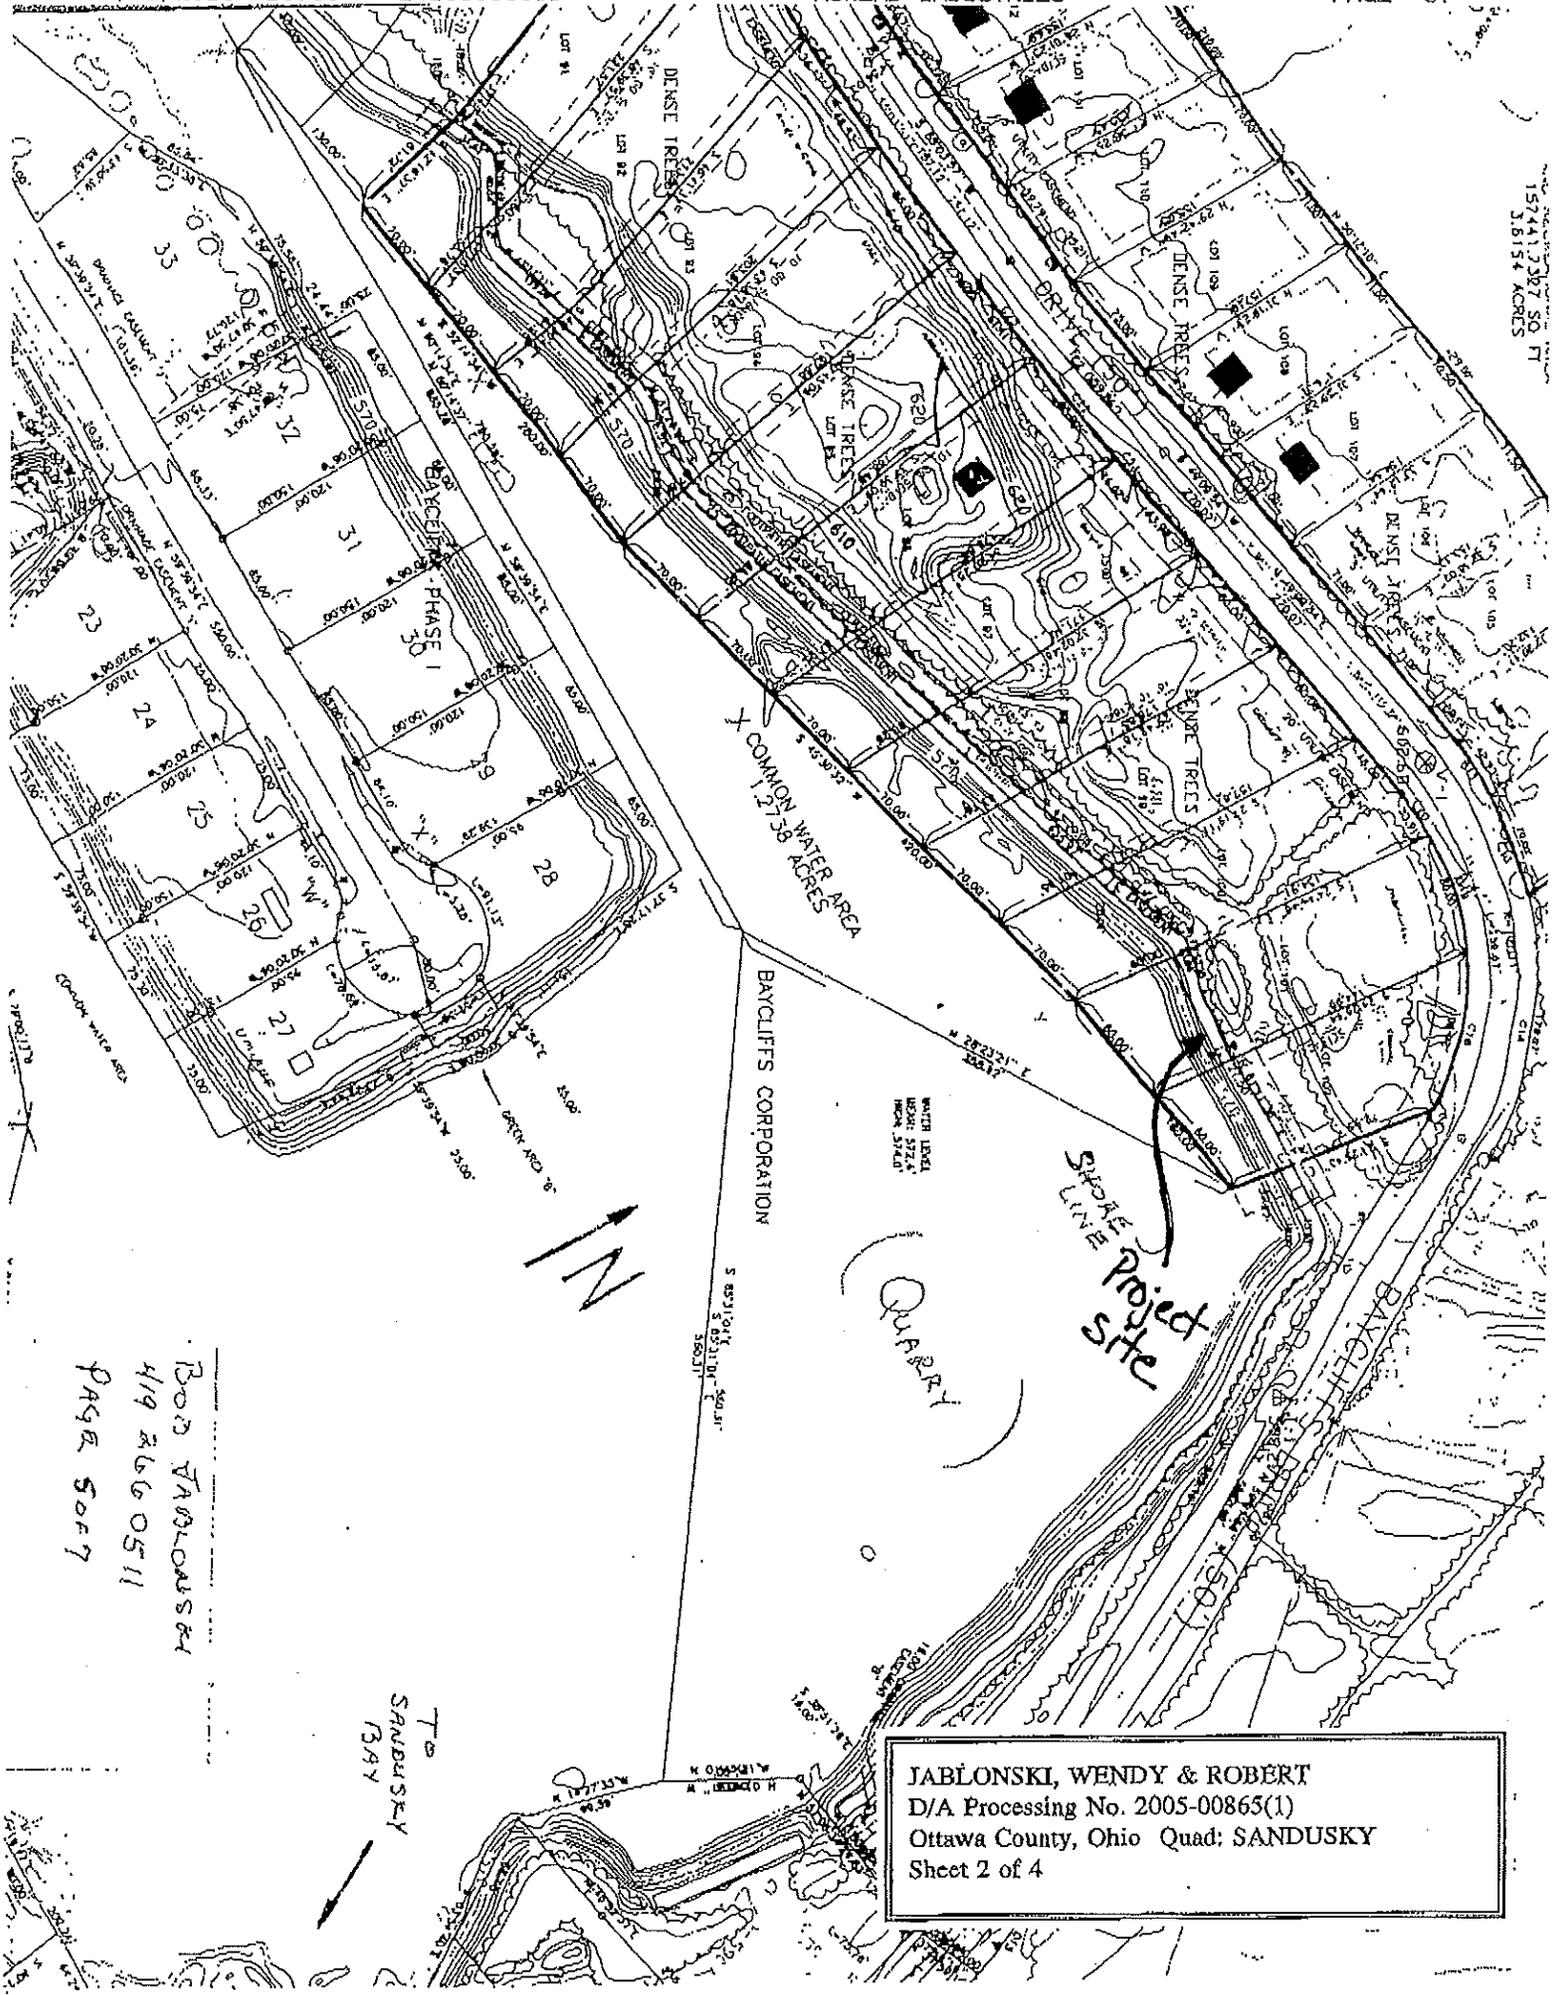

No work will preformed between March 1 to June 15 to preclude adverse impacts on the spawning of indigenous fish species if necessary.

Construction: Dock structure will be made of galvanized steel, the same as the original dock with foam filled floats (Roto Float, brand name) underneath frame and 2" x 5-1/2" skid proof composite decking on top of frame for walking.

Thank You,

Robert Jablonski, 419-266-0511, fax: 419-333-8399, E-Mail: rjj1972@sbcglobal.net
