

Ohio Clean Marinas & Clean Boater Programs

& the Shrink Wrap Recycling Program

3

staff are recruiting and training marinas and boaters.

2005

the year the first Ohio Clean Marina was certified. Ohio Clean Boater pledges began in 2006.

2015

the year the clean marinas and clean boater programs expanded statewide.

48

Ohio Clean Marinas are certified; 45 more have pledged to meet certification standards and take voluntary steps to protect clean water and fresh air.

2,200,000

pounds of boat shrink wrap have been recycled.

\$300

annual savings of marinas participating in the shrink wrap recycling program. Recycled shrink wrap is used to make a variety of products including wheel chocks and guardrail blocks (pictured top left).

Take Action

Encourage your marina to become certified or maintain their Ohio Clean Marina certification status.

Dock at a certified Ohio Clean Marina.

Join the Ohio Clean Boater Program; learn about and use best boating practices.

Share stewardship tips with others.
